Are there additional applicants?
No

Project Title
Gymnastic Mats for Physical Education

Amount Requested
$699.66

Describe your project, include your objectives, materials you will need, and methods you will use
This project is for 2 gymnastic mats to add to our collection due to increased class sizes. I use gymnastics mats not just for gymnastics, but for a variety of different activities, including circuit training stations, large group games such as island movers, and also for adapted physical education. My objective is to increase the use of mats and the types of activities that can be done with mats when I have enough for all of my students.

How will you determine whether your objectives have been achieved and whether your project is successful?

I will know that I have met my objective if I am able to teach with the mats at least 3 times or more each month; many of the games and activities I teach use the mats and the quantity of my use of mats will determine that it was successful. I will also know I've achieved my objectives if I see increased flexibility in my students from the activities we do with the mats.

Give a Time Schedule of Events:
The mats will be used in all P.E. classes and by all students as soon as we receive them. Photos of students using the mats will be sent to LPSF no later than March 31st.

Approximately how many pupils will be affected by this project?
500

Please submit an itemized budget for your grant:
2 TumblePro Varia 2" Triple-layer Cheer Mats—4'x6'	$299.00 each X 2=	$598.00
Shipping, Handling, & Processing		$101.66
Total		$699.66

If partial funding is available, would you accept?
Yes
