

ABOUT *the* FOUNDATION

The Lawton community is full of passionate teachers striving to create a robust learning environment for their students. As a community, if we want our teachers to incite curiosity and excitement in students, we must give them more. The standard resources aren't enough to cultivate a generation of confident, passionate learners.

In 1991, Lawton community members established the Lawton Public School Foundation as a way to supplement teacher and student needs not met by government funding. Today, the Foundation continues to support students and teachers in each Lawton Public School through grants that encourage innovative and creative learning experiences. The Foundation awards grants to teachers for specific projects, initiatives, or activities that enhance students' education. The Foundation encourages community members and businesses to contribute to our students' emboldened futures by donating to the LPS Foundation. The impact of our donors gives students the chance not only for a more fulfilling education, but a more rewarding and exciting future.

Monday, April 15, 2024

A CONTINUING TRADITION

Our mission is *Enhancing the educational experience of Lawton Public School students and faculty through technology, programs, materials, and extracurricular activities.*

With the generous support of sponsors and players, we hope to raise **\$100,000!** Since 1991, the LPS Foundation has provided more than \$900,000 worth of resources for our teachers and students!
